## Positive RAT results to inbox of enrolled GP:

- Positive RAT results for enrolled patients will now go directly into the GP inbox.
- Results will appear in the GP inbox under the LAB Folder.
- When opened from the inbox, the positive RAT result can be identified as part of the message.

**Note:** Please note, the COVID results and notifications will be sent to the GP based on data available in the National Enrolment System (NES). If a specific practitioner is linked to the patient in the NES, the message will go directly to their inbox. NES can be updated by your practice manager to link a patient to a specific practitioner via the standard enrolment updates.
